

SCL924

ADAPTOR KIT

2JZ ENGINE

Performed by **SADEV**

SADEV TRANSMISSION OPTIMIZED FOR YOUR 2JZ ENGINE.

RICH RINKE

OWNER / DRIVER, TURN KEY AUTOMOTIVE

As a race car builder and driver, I've had the opportunity to test a lot of different driveline setups over the years, and the SADEV sequential transmission stands out as one of the best I've ever used. The precision and feel of each shift are absolutely top-notch — crisp, consistent, and confidence-inspiring every time I'm on track.

”

ENHANCE YOUR PERFORMANCE WITH THE SCL924 SEQUENTIAL ADAPTOR KIT FOR 2JZ ENGINE !

Enhance your performance with the SCL924 transmission Kit for 2JZ engine. With the 2JZ sequential transmission Kit, SADEV provides you a **bespoke solution**, ready to be used for optimal performance and to have the best chances of winning.

OPTIMISED WEIGHT

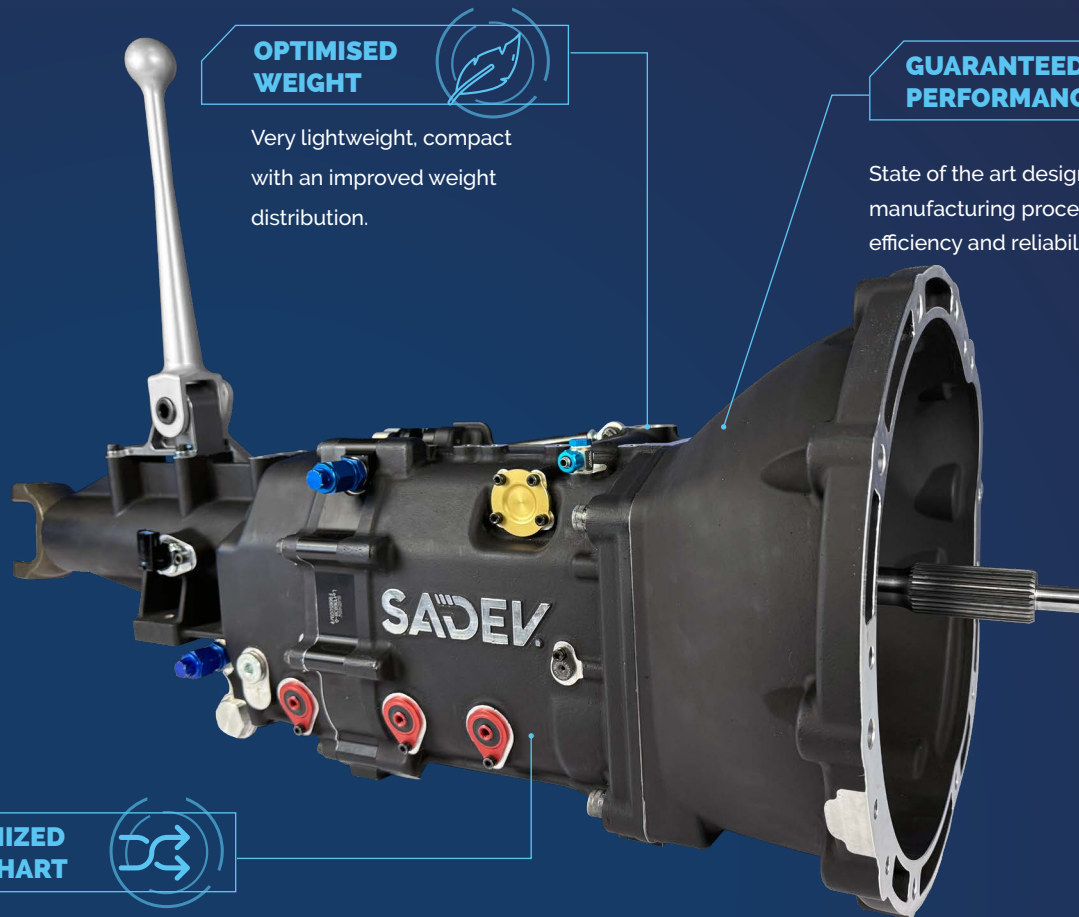

Very lightweight, compact with an improved weight distribution.

GUARANTEED PERFORMANCES

State of the art design and manufacturing process ensure optimal efficiency and reliability.

CUSTOMIZED RATIO CHART

The interchangeable drop gears and a large selection of gear ratios allows you to tune the gearing to your specific needs. You are no longer limited by the OEM ratio options.

ENGINEERED FOR OPTIMISED PERFORMANCE AND DURABILITY

KIT CONTENTS

ADAPTABILITY OF THE KIT

- Bellhousing design from OEM components allows for easy installation of SCL924 to the popular 2JZ engine
- Engineered for optimized light weight and strength
- Allows use of motorsport hydraulic clutch bearing
- Sadev paddle shift capable
- Custom input shafts available

SADEV ACCESSORIES AVAILABLE IN OPTION :

- Paddle-shift
- Gear display

Weight of the kit components (excluding gearbox weight) : ? Kgs / ? lbs

“

« After my second season racing the SADEV SCL924, I couldn't be happier. The durability is incredible. We still have not needed to change out any gears or dog rings. The sequential shift means I never have to second guess my shifts. No more sketchy 3rd to 2nd cross-gate downshifts.

AMERICAN PROFESSIONAL DRIFTER

“

« As a driver here in the US, a race shop owner and a car builder, I'm constantly seeking the best parts for the application that can handle the abuse we throw at them. I have had the pleasure of running the SADEV SCL924 sequential transmission since 2022. I can tell you from my personal experience that this transmission is by far the best shifting sequential I have driven. The SADEV can also handle the 1000WHP we put through it with zero issues for an entire race season not to mention two in row. Once I started running the SADEV I knew I was not going to be worrying about trans issues ever again and I also knew this was the company I would be working with in all my competition cars moving forward.»
